

# Example Woody Biomass Study Table of Contents

Letter of Transmittal .....	
<b>Table of Contents .....</b>	<b>i</b>
<b>Executive Summary .....</b>	<b>1</b>
<i>Table 1. Timberland Ownership by Forest Type within the Project Area.....</i>	<i>1</i>
<i>Table 2. Privately Available Sources of Fuel: Estimated Quantities and Prices.....</i>	<i>1</i>
<i>Table 3. Current Private Timberland Inventory and Annual Growth in the Project Area.....</i>	<i>2</i>
<i>Table 4. Primary Wood Processing Facility Log Consumption.....</i>	<i>2</i>
<i>Table 5. Residue Production by Primary Wood Processing Facilities. ....</i>	<i>2</i>
<i>Table 6. Known Mill Waste-wood Sites. ....</i>	<i>3</i>
<i>Table 7. Total Annual Hog Fuel Volume Available from Logs Less Than \$100 per BDT in Price. ....</i>	<i>3</i>
<b>Summary of Results .....</b>	<b>1</b>
Hog Fuel Consumption .....	1
<i>Table 8. Current Mill Production and Use of Wood and Bark Residues from Lumber Production.....</i>	<i>2</i>
<i>Figure 1. Historical Mill Production and Use of Wood and Bark Residues.....</i>	<i>2</i>
Projected Timber Harvest Levels .....	3
<i>Table Figure 9. Project Area Historical and Projected Annual Harvest Volumes (Mbf). ....</i>	<i>3</i>
Forest Growth .....	4
<i>Figure 2. Project Area Current Annual Growth per Acre by Age Class.....</i>	<i>4</i>
<i>Figure 3. Historical and Projected Annual Private Timberland Inventory Growth (BDT's). ....</i>	<i>4</i>
Projected Available Logging Residues .....	5
<i>Table 10. Projected Volumes of Private Timberland Logging Residues. ....</i>	<i>5</i>
Other Potential Wood Residue Sources .....	6
<i>Table 11. Known Mill Waste-wood Sites. ....</i>	<i>6</i>
Estimated Logging Residue Delivery Costs.....	7
<i>Table 12. Estimated Logging Residue Delivery Costs. ....</i>	<i>7</i>
<b>Regional Overview .....</b>	<b>8</b>
<i>Figure 4. Economic and Production Regions where mills are located.....</i>	<i>9</i>
<i>Table 13: Production and Use of All Types of Mill Residues by Production Region.....</i>	<i>10</i>
<i>Table 14: Production of Wood and Bark Mill Residues by Production Region.....</i>	<i>11</i>
<i>Table 15. Log Consumption by Log Diameter and Production Region. ....</i>	<i>11</i>
<b>Hog Fuel Sourcing.....</b>	<b>12</b>
<i>Figure 5. Volume of Hog Fuel Deliveries by Month and Year (BDT's).....</i>	<i>12</i>
<i>Figure 6. Number of Hog Fuel Suppliers by Month and Year (BDT's). ....</i>	<i>13</i>
<i>Table 16. Hog Fuel Type by Transportation Distance from the Mill (BDT's). ....</i>	<i>14</i>
<i>Table 17. Hog Fuel Suppliers, 2006. ....</i>	<i>15</i>
<b>Project Area Statistics.....</b>	<b>16</b>
<i>Figure 7. Project Area Map.....</i>	<i>16</i>
Ownership .....	17
<i>Table 18. Project Area (Acres) by County and Owner Class.....</i>	<i>17</i>
Project Area Ownership Acres by Distance from Mill.....	18
<i>Table 19. Project Area (Acres) by Owner and Distance from Mill.....</i>	<i>18</i>
<i>Figure 8. Project Area Major Timberland Owners from ACI Database. ....</i>	<i>19</i>
Private Forestland Inventory .....	20
<i>Table 20. Private Timberland Age Class Distribution (Acres and Scribner Volumes). ....</i>	<i>20</i>
<i>Table 21. Private Timberland Age Class Distribution (Acres and Cubic Volumes). ....</i>	<i>21</i>
Private Forest Inventory Growth.....	22
<i>Table 22. Private Forest Inventory Growth by County and Age Class.....</i>	<i>22</i>
<i>Table 23. Cubic Volume Relationships by County and Age Class (1990). ....</i>	<i>23</i>
<i>Table 24. Private Timberland Growth by Site Class.....</i>	<i>24</i>
Species Composition.....	25
<i>Table 25. 2000 Private Timberland Species Composition by County (Acres &amp; Scribner Volumes). ....</i>	<i>25</i>
<i>Table 26. 2000 Private Timberland Species Composition by County (Cubic Volumes). ....</i>	<i>26</i>
<i>Table 27. 2000 Acres by Age Class and Species Type. ....</i>	<i>27</i>

<i>Table 28. 2000 Volume (Mbf Scribner) by Age Class and Species Type.</i> .....	29
Trees per Acre .....	31
<i>Table 29. Average Number of Trees per Acre by County And Age Class.</i> .....	31
<b>Private Timberland Harvest Level Projection.</b> .....	<b>32</b>
<i>Table 30. Harvest Projection Summary.</i> .....	32
<i>Table 31. 2000 Private Timberland Inventory Acres and Volumes by Age Class.</i> .....	33
<i>Table 32. 2000 Private Timberland Current Annual Increment (Growth) by Age Class.</i> .....	34
<i>Table 33. Historical Harvest by County and Year.</i> .....	35
<i>Table 34. Private Timberland Inventory Acres &amp; Volumes by Age Class -- Projection.</i> .....	36
<i>Table 35. Private Timberland Harvest Volume Projection by Age Class (Mbf).</i> .....	37
<i>Figure 9. Projected Harvest Volumes (Mbf) by 5-Year Period.</i> .....	37
<i>Figure 10. Historical and Projected Age Class Distribution (Acres).</i> .....	38
<i>Table 36. Projected Growth (BDT's).</i> .....	39
<b>Logging Residues</b> .....	<b>40</b>
<i>Table 37. Summary of Results.</i> .....	40
1980 Logging Residue Study .....	41
Background Data.....	41
<i>Table 38. Wood Density and Heating Values for Selected Species.</i> .....	41
1980 Study Results.....	42
<i>Table 39. Gross Volume of Logging Residue by Owner Class, Harvest Method, and Dia. - Length Classes.</i> .....	42
<i>Table 40. Ratios for Estimating Logging Residue Volumes in the Pacific NW (Gross &amp; Net).</i> .....	43
<i>Table 41. Ratios for Estimating Logging Residue Volumes in the Pacific NW (Net Wood &amp; Bark).</i> .....	44
Adjustments to Predicted Logging Residue Volumes Since 1980 .....	45
<i>Table 42. Private timberland logging residue (# of Pieces) by harvest method and diam. - length classes.</i> ....	45
<i>Table 43. Gross volume of logging residues on Private timberlands.</i> .....	46
Operational Feasibility Analysis .....	46
Yarding Costs.....	47
<i>Table 44. Cost of Skidding Material by Piece Size and Distance.</i> .....	47
<i>Figure 11. Skidding Costs by Piece Size and Distance.</i> .....	47
<i>Table 45. Percent of Timberland Area by Owner Class, Slope Percent, and Distance From Road.</i> .....	48
<i>Figure 12. Project Area Slope Classification Map.</i> .....	49
<i>Figure 13. Map of Mill Proximities to Mill.</i> .....	50
Hauling Costs .....	51
Results: .....	51
<i>Table 46. Summary of Operational Feasibility (5-County Project Area).</i> .....	51
<i>Table 47. Project Area Acres &lt;= 35 Percent Slope by Owner and Distance from Mill.</i> .....	52
<b>Log Consumption and Residue Production by Mills</b> .....	<b>53</b>
<i>Table 48. Catalog of Primary Wood Processing Facilities within the 5-County Project Area.</i> .....	53
<i>Table 49. Estimated Annual Log Consumption (BDT's) by Mill Type &amp; Distance (Air Miles) to Mill</i> .....	54
<i>Table 50. Estimated Log Conversion to Lumber and Residues by Distance from Mill (Project Area).</i> .....	54
Abandoned Mill Waste Sites.....	55
<b>Glossary of Logging, Forest Engineering and Associated Forestry Terms</b> .....	<b>57</b>
<b>References</b> .....	<b>73</b>
<b>Appendix</b> .....	<b>74</b>
List of Primary Wood Processing Facilities .....	- 1 -
Logging and Agricultural Supply Curves for the Pacific Northwest, January, 2001. ....	- 7 -
Conversion Factors.....	- 8 -
